

Student Role: How do You Access a CPM eBook Using an Enrollment Pin?

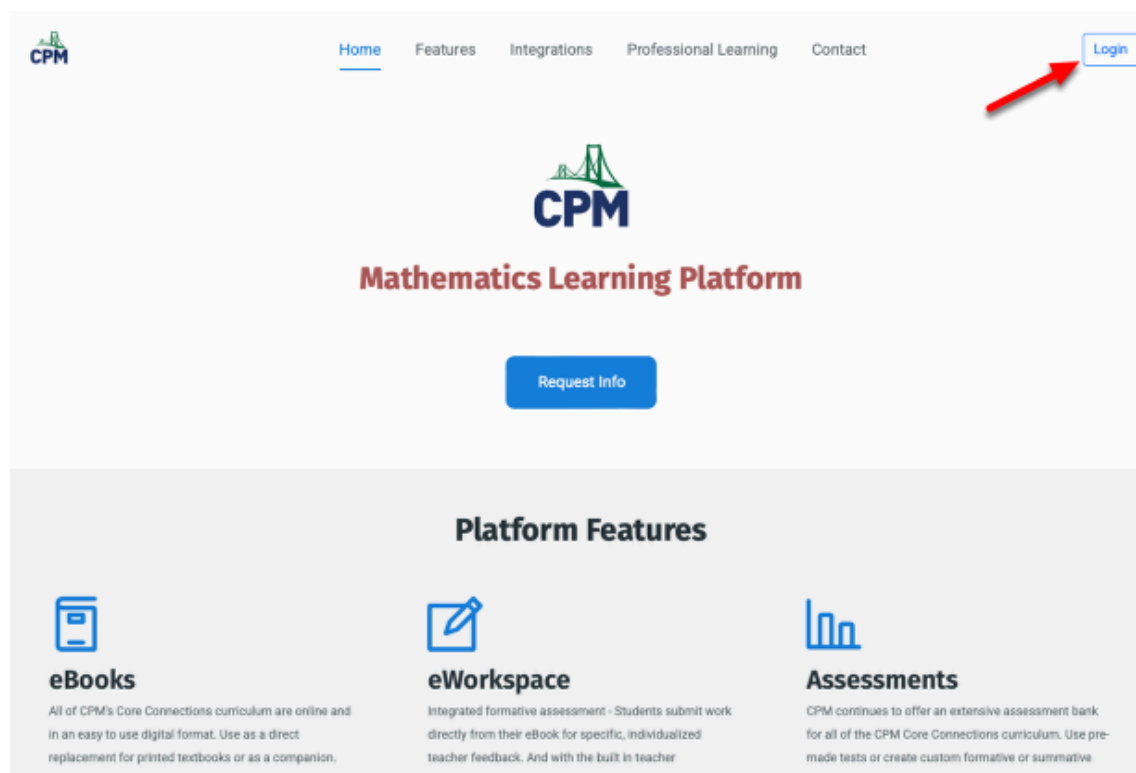

NOTE: This article describes the process for schools and districts that manually assign licenses.

This article describes how to use an Enrollment Pin to access an eBook. Students using Google will not need to create an account since they will be tying their CPM account to their social media account. Students without a social media account will register once and then login with their username and password. eBooks will expire in the student account on the date the teacher provides when setting up the Enrollment Pin.

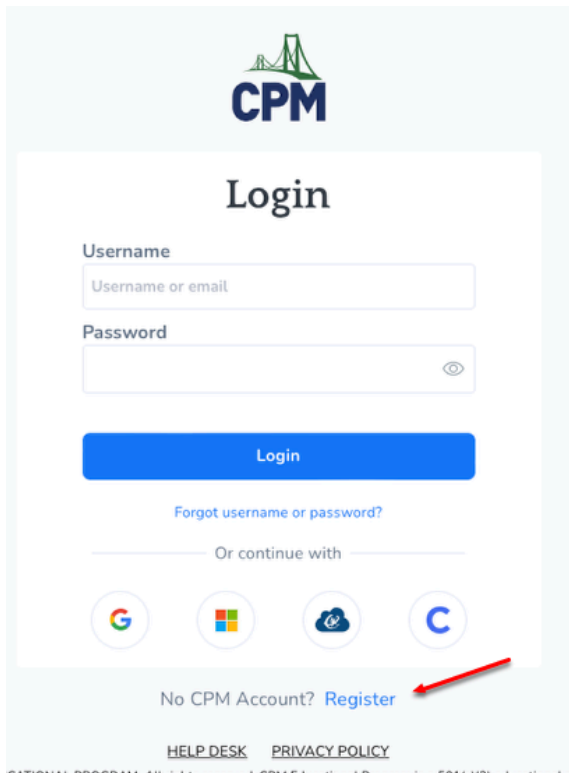

NOTE: You will need your enrollment pin only ONCE. After the first time, you go to my.cpm.org and either click the social media button or login.

1. Your teacher will give you a 5 character pin number.

- Go to <https://my.cpm.org>
- Login in the upper right corner of the page.

Click 'Register' at the bottom of the login page.

The image shows the CPM login page. At the top is the CPM logo. Below it is a 'Login' section with a 'Username' field (placeholder: 'Username or email') and a 'Password' field (with an eye icon for toggling visibility). A blue 'Login' button is below the fields. A link 'Forgot username or password?' is below the button. Below that is a section 'Or continue with' with four circular icons: Google, Microsoft, Apple, and CPM. At the bottom, there is a link 'No CPM Account? Register' with a red arrow pointing to it. At the very bottom are links for 'HELP DESK' and 'PRIVACY POLICY'.
